DETAILED ACTION

Response to Arguments

1. In light of the amended version of the claims, the Applicant's arguments filed August 6, 2004, with respect to pending Claims 1, 5-11, and 14-16 have been fully considered and are persuasive.

Allowable Subject Matter

2. Claims 1, 5-11, and 14-16 are allowed.

These claims have respectively been renumbered, 1, 2, 8, 3, 4, 9-11, and 5-7.

3. The following is an examiner's statement of reasons for allowance:

The arguments presented by the applicant in particular regards to the amended limitation of one correction filter for correcting frequency characteristics along equidistant lines between adjacent speakers, when taken in the context of the one filter being coupled to twelve full range speakers, arranged in three or four sets of speaker groups of equal numbers of speakers, are persuasive. While the elements recited therein can be found in a combination of various references or well known prior art, the examiner has found neither contained in a single reference, nor motivation for combining the teachings of prior cited or well known art, to arrive at the

Art Unit: 2644

particular inclusion and interconnection of elements as now set forth by the applicant in each of the independent claims.

The dependent claims are considered allowable at least by virtue of their respective dependencies upon the independent claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Derogis et al (USPN 5793876) discloses a regular dodecahedron speaker that utilizes grouped speakers, but not at least the groups of equal numbers of speakers connected in parallel as positively recited in the present application.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance." Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Graham whose telephone number is 703-308-6729. The examiner can normally be reached on Monday-Friday, 8:30 AM to 5:00 PM (EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bill Isen can be reached on (703)305-4386. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
